Process to Register in 2023

Registrations for the 2023 Football Queensland season will open on **Monday, 9 January 2023** with all participants required to complete a two-step process for next season's football registration including the setup of a Squadi profile for all formats of football competitions in Queensland.

Squadi, FQ's new online competition management software solution, is available online and through Google Play and the App Store.

All participants are required to complete the following steps ahead of the 2023 season:

Step 1: Register in Play Football

To complete your National Registration requirements.

Step 2: Create your Squadi Profile

To complete your playing eligibility, access to team allocation, online teamsheets, payment and all other competition management tools.

The benefits of the Squadi platform include the integration of player registrations, competition management, referee appointments and payments, online team sheets and a match day solution, and a club and player communication platform.

The Squadi platform will streamline all facets of football in one single competition management system, removing unnecessary duplication of effort for clubs and participants.
